

Earl Sterndale CE Primary

At Earl Sterndale, Cognition and Learning is our highest area of need for SEND and Speech, Language and Communication. This differs slightly from National figures, as the top two areas of need are Speech, Language and Communication and Social, Emotional and Mental Health. However, many of our pupils with SEND need support in more than one area of need, particularly SEMH which is not really reflected here. This graph is based on the pupil's most significant area of need. We only place children with a clear need, diagnosed (or clearly on route to diagnosis) on the SEND register as we aim to not over-identify SEND. Children who are being monitored are not included here. We provide support to children who need it – support is never diagnosis dependent. We provide a wide range of support - more information is on our website.

We are an inclusive school and have a higher than average number of children with SEND at Earl Sterndale.

Broad Areas of Need

SEND figures Sept 24	% of pupils at Earl Sterndale	% National figures for primary schools
EHCP pupils	0%	4.8%

SEND Priorities/training – 2024/2025

- Mental Health Lead
- Creative developments engaging pupil voice
- ELSA training
- Autism Advocate training
- SEND Governor to be informed of current SEND numbers, new initiatives and pupils strengths and needs
- Continue Zones of Regulation and Emotion Coaching

SEND Provision Support

ELSA, Precision teaching , Speech & Language Therapy, Nurture sessions, Social Communication Programmes, Zones of Regulation, Lego Therapy, Physio, fine & gross motor skills programmes , Write from the Start, Reciprocal reading, Toe by Toe, Phonics intervention,

Strengths:

- All staff take time to get to know the individual child, recognising that all our pupils are unique, placing each child at the centre of their learning.
- Teachers ensure that all reasonable adjustments are in place to deliver effective provision for pupils with SEND.
- We employ a fully trained ELSA and one member of staff holds a diploma in dyslexia.
- Well supported classes with experienced and qualified TA's in all.
- Providing timely and appropriate support for pupils through the application of early identification and the graduated response (Assess, Plan, Do Review – Provision Maps)
- Staff training provided to further develop quality first teaching, so as to improve quality first provision and improve access to learning within the classroom.
